

# LUXVIEW

## Simulated Divided Lites

Enhance visual depth and architectural character with precision-crafted divided lites—designed to integrate seamlessly across the LuxView system.

### Key Features

#### Universal Compatibility

Available across all LuxView products for a cohesive design language throughout your project.

\*Some limitations apply. Consult with your LuxView representative.

#### Custom Configuration

Fully customizable spacing and layout to align with your design intent and sightlines.

#### Profile Variety

Offered in multiple profile shapes to achieve distinct aesthetic styles—from traditional to modern.

(Profiles pictured on the right)

#### Color-Matched Finishes

Factory-finished to match frame colors for a clean, unified appearance.

### Design Flexibility

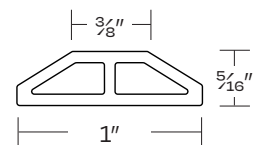

Choose from a range of SDL styles to suit your project:

- Traditional grid patterns
- Contemporary minimal layouts
- Custom configurations tailored to unique elevations
